Comment Text :

1 { ---> I am in favor of the National High Level Nuclear Waste Repository, it is needed, it is the responsibility of our federal government. However, I am not in favor of forcing it down the throats of the citizens of the state of Nevada. If it must reside in the state of Nevada then it must also include a National Laboratory along with it, on the site, focused on resolving the High Level Nuclear Waste Issue in other was than this rudimentary storage solution. }
